Texas Forestry - As Diverse As Our State

April 18-19, 2006, Nacogdoches, Texas

Our profession is one of many diverse disciplines woven together and interrelated by our environment. Whether you work primarily in timber, water, wildlife, recreation, range or some other natural resource field, the decisions you make every day in some way affect one or more of the other areas.

Much like our great state, you cannot visit

one area or discipline and gain an appreciation for the whole. The diversity of forestry requires us to think, plan and act with a larger purpose than our own.

This meeting will provide us with an opportunity to gain insight into many of the different fields in which we work, earn CFE's, network with fellow members, and recognize our members for their contributions to forestry. Hope to see you there!

Location:

The meeting will be held at the Banita Creek Hall in Nacogdoches, Texas. The address is **401 W. Main St.** Nacogdoches, TX 75961

Take Hwy 59 to downtown Nacogdoches. Head West on Hwy 21 (downtown intersection). Banita Creek Hall is on the left.

From Loop 224, take Hwy 21 east and head towards downtown. Banita Creek Hall is on the right prior to the downtown intersection.
